

Checklist for Choosing

a Simulation Evaluation Tool

Aligned to INACSL: Healthcare Simulation Standards of Best Practice® (HSSOBP)

Before selecting an evaluation tool, ask yourself the following questions:

	Does it align with the learning objectives?
	Is it appropriate for formative or summative assessment?
	Is the focus on skills, judgment, attitudes, or perceptions?
	Is the tool validated & reliable?
	Is training required to use the tool consistently?
	Does the tool fit the time/resources available?
